

PROCUREMENT & SUPPLY CHAIN MANAGER

As a part of the DTS Leadership Team the successful candidate will take responsibility for managing and driving all the purchase and supply chain activities in the company. He/She will oversee and manage every stage from the search and negotiation with a manufacturer up to delivery of goods to the company's UK warehouse, with the latter being managed alongside the company's Head of Logistics. This role has a huge potential for growth and offers a fantastic opportunity for an associate procurement or supply chain manager to make a new step in their career.

APPLY WITH YOUR CV: INFO@DTSTRADING.COM

RESPONSIBILITIES:

- Plan and implement the overall supply chain strategy
Supply chain management: manage the production and delivery process, ensure timely delivery goods of goods to the DTS UK warehouse
- Product Portfolio management: identify product trends in the market, search for and source new products and negotiate terms with the company's existing product manufacturers
- Monitor warehouse stocks, manage inventory and create product forecasts
- Optimise all procurement processes with new and existing supply chain partners
- Determine best vendors, manufacturers and logistic partners
- Collaborate with Sales, Marketing and Warehouse management teams
- Identify process bottlenecks and implement solutions in a timely manner
- Role Division: 50% procurement & 50% supply chain management

WE ARE LOOKING FOR:

- Previous working experience as a Supply Chain Manager or Procurement manager for 3+ years
- Strong understanding of product certification requirements
- Critical thinker and problem-solving skills
- Strong planning skills
- A logical and systematic approach to work
- Team player with 'ready to do' approach
- Pro-active personality with excellent time-management
- Experience in the Healthcare, Medical and/or Industrial Sector would be advantageous, but is not essential.

WHAT WE OFFER:

- The opportunity to grow a stable and profitable business and create your own procurement and supply chain team
- A competitive salary, annual bonus and opportunity to earn shares in the company.
- Working with a proactive and innovative team
- Flexible working hours and location
